SECTION 3: There is hereby levied the following rates of tax on each one hundred dollars (\$100.00) valuation of taxable property as listed for taxes as of January 2013 for the purpose of raising the revenue from current years property tax as set forth in the foregoing estimates of revenue and in order to finance the foregoing appropriations.

The General Fund for the general expenses incident to the proper government of the Town of Forest City is \$.29 per \$100.00 valuation. This tax rate is based on an estimated total assessed valuation property for purposes of taxation of \$949,033,380

SECTION 4: Copies of this ordinance shall be furnished to the clerk to be kept on file by her and to the finance director for direction in distribution of town funds.

SECTION 5: This ordinance adopted this 17TH day of June 2013.

SECTION 6: This ordinance shall take effect July 1, 2013.

Mayor

ATTEST:

City Clerk

TOWN OF FOREST CITY, NORTH CAROLINA FY 2013-2014 BUDGET MESSAGE

To the Honorable Mayor and Council Members:

The proposed budget for fiscal year 2013-2014 is presented for your consideration. This recommended budget is balanced based on a tax rate of 29 cents per \$100 valuation. The net value of one cent of property tax (after applying the collection rate) is \$90,667. This budget message is divided into the following sections:

		Page #

INTRODUCTION

The FY 2013-2014 budget represents the first Town of Forest City budget prepared by the current City Manager and Finance Officer. This budget process represented a significant learning curve for all involved in the preparation of budgets. The purpose of this budget message is to share with the Mayor, Town Council, staff and the public the major features of the Town's operations as it relates to the budget.

The chart below, "Town of Forest City FY 2012-2013 Amended and FY 2013-201. Recommended Budgets," shows the five major funds which make up the Town budget.

Chart 1: TOWN OF FOREST CITY FY 2012-2013 AMENDED AND FY 2013-2014 RECOMMENDED BUDGETS

	Amended FY 2012-13	Recommended FY 2013-14
General Fund	\$ 8,690,134	\$ 9,433,208
Florence Mill Fund		\$ 213,888
Parks & Recreation Fund	\$ 2,138,713	\$ 1,935,780
Water & Sewer Fund	\$ 6,806,475	\$ 5,449,243
Electric Fund	\$13,377,788	\$12,806,780
TOTAL	\$31,013,110	\$29,838,899

The major goal of the FY 2013-14 recommended budget was to maintain services without increasing property tax rates or user fees. This represented a challenge in that ad valorem property taxes, net of the Facebook levy, have fallen by \$175,000 over the last two years. addition, electric sales have remained relatively flat. The Town's decision not to pursue a

revenue neutral budget or pass along the last Duke Energy rate increase (loss of \$73,000) has made some impact on the Town's revenues. However, as this budget message will highlight, ome areas such as combined sales tax and utility franchise tax are experiencing some growth 1¢ \$64,596 and \$145,000 respectively.

III (GENERALEUND)

Revenues

Four revenue sources comprise 50% of the General Fund recommended revenues. These sources are ad valorem taxes, sales taxes, electric utilities franchise taxes and waste collection charges. A four year history of these revenues is shown below in Chart 2:

CHART 2: FOUR YEAR HISTORY OF MAJOR TOWN OF FOREST CITY
GENERAL FUND REVENUES

	FY 10-11 Actual	FY 11-12 Actual	FY 12-13 Amended Budget	FY 12-13 stimated	FY 13-14 Recommended
.d valorem taxes	\$ 1,624,854	\$ 1,615,956	\$ 1,859,500	\$ 1,848,000	\$ 2,708,359*
Sales taxes	\$ 671,210	\$ 724,209	\$ 665,000	\$ 680,000	\$ 729,596
Electric Utility Franchise	\$ 165,246	\$ 213,348	\$ 170,000	\$ 300,000	\$ 315,000
Waste Collection Charges	\$ 954,215	\$ 1,011,915	\$ 1,020,000	\$ 1,010,000	\$ 1,010,000
Subtotal	\$ 3,415,525	\$ 3,565,428	\$ 3,714,500	\$ 3,838,000	\$ 4,762,955

^{*}Facebook accounts for \$1.26 million of the total ad valorem levy but is also reflected on the expenditure side as an incentive grant. Therefore, while ad valorem tax revenues have increased \$1.26 million due to Facebook, expenditures have increased by an equal amount.

Ad valorem taxes include current year taxes, prior year taxes and penalties and interest. The County Tax Office estimates that the Town's ad valorem tax base for FY 2013-14 will be approximately \$950 million. See Chart 4, "2013 Real and Personal Property Value Estimates" on page 17. At the FY 2011-12 property tax collection rates of 95.98% for all property excluding DMV and 82.41% for DMV, this equates to a net collectible current year levy of \$2,629,359 (net value of one cent = \$90,667). Approximately \$1.26 million of this \$2,629,359 is Facebook levy of which 100% is returned as an incentive grant to Facebook. Therefore, while overall ad valorem tax revenues have increased by \$1,083,505 (\$2,708,359 - \$1,624,854) ince FY 10-11, ad valorem tax revenues net of the Facebook levy, have actually declined approximately \$175,000. See Section VIII. 2013 Property Values and Facebook Impact for further discussion.

Sales tax revenues have increased from a total budget of \$665,000 in FY 2012-13 to an estimated \$729,596 in FY 2013-14. This \$64,596 increase is largely attributable to the positive impact of Facebook's property value (based on the County use of ad valorem levy for sales to distribution) and the statewide projected sales tax. Sales tax from the local economy has not created a positive impact for FY 2013-14 revenue projections.

The Electric Utility Franchise Tax has increased from a budget of \$170,000 in FY 2012-13 to an estimated \$315,000 in FY 2013-14, or a \$145,000 increase. This is largely due to Facebook. Tax reform is currently being discussed in the State legislature that would impact the Town's ability to receive Utility Franchise revenue. This was the main revenue source that the Town expected to receive due to the annexation of and incentive agreements with Facebook. We have \$315,000 budgeted next year for Utility Franchise Fee.

Waste collection charges have remained relatively flat for the past couple of years. The recommended budget includes sanitation revenues of \$1,015,000 (\$1,010,000 user fees and \$5,000 State solid waste disposal tax distribution) and expenditures of \$1,057,000.

While the revenues mentioned above are the most significant revenue sources in the General Fund, transfers from the utility funds represent \$4,636,501 in funding for the General, Florence Mill, and Parks and Recreation Funds. A more detailed explanation of utility transfer is provided in Section XI. Interfund Transfers. In addition, the fund balance available f appropriation is described in more detail in Section IX. Fund Balance and Historical Review of Town of Forest City Capital Reserve.

Expenditures

This section is a brief narrative of changes in individual departments' expenditures that staff felt needed to be discussed in this report.

The **Governing Body** budget includes two items that require a brief explanation. First, the Town Council provided a contribution to the Legion Team of \$4,000 in FY 2012-13 that was budgeted in the Governing Body "Contributions" line item. The recommended budget for FY 2013-14 moves this contribution to a separate line item within the Parks and Recreation Athletics Program Budget to be consistent with the accounting treatment of other athletic program contributions. In addition, \$3,000 is included in the Governing Body budget for the upcoming municipal elections process in the Fall of 2013.

The **Administrative** budget requires one item of explanation. The line item Facebook Grant will increase from \$319,193 to \$1,266,941 which is a reflection in the increased value of the Facebook facility from \$110,619,710 (FY 2012-13) to \$436,876,360 (FY 2013-14). This discussed in further detail on page 18.

The Finance budget includes the filling of a currently authorized but vacant position in the tilities Billings and Collections area effective September 1, 2013. This position was left vacant . couple of years ago in the transition upon the Finance Director's and Accountant's retirement. Duties within this department have not declined, but actually continue to grow. With this position filled, the Finance staff will have more time to devote to planning, policies and debt setoff collections which will increase revenues for the Town. In FY 2009-2010, the Town was able to collect over \$26,000 in revenue through the debt set off program. The debt setoff program is a mechanism in partnership with the State where local governments can collect debts owed to the local government by withholding the debt from any State Income Tax that the debtor would be due. There is a notification process to the debtor and this is a process that must be managed continuously in order to make sure that any revenues allowed through this process can be collected by the Town. Due to the current vacancy in the Finance Department and additions to the workload in general, the debt setoff program has not been utilized as heavily in the past few years. It is estimated that at least \$15,000 in additional revenues can be generated in FY 2013-2014 if additional time is devoted to revitalizing and efficiently managing debt setoff. Filling this position will also allow the Town to move toward having a full time staff member dedicated to Human Resources as the current Personnel Coordinator spends approximately 20% of her time on non-HR/Payroll duties. The cost of this position is allocated among the Finance Department, Water and Sewer Fund Administration nd Electric Fund Administration and will add a total of \$31,689 (\$15,528 General, \$10,774 Water and Sewer, and \$5,387 Electric) to the total budget. In addition, the Finance, Water and Sewer Administration and Electric Administration budgets include the purchase of a Purchase Order software module totaling \$5,500. This module will enable the Finance Office and staff the ability to have a more clear understanding of Purchase Order commitments that are outstanding and the balance of funds that are truly obligated by the Town. The current software as it stands does not have this integration.

The Warehouse/Garage budget includes the lease purchase of a 1 ton single wheel 4 wheel drive service truck at a cost of \$48,000 to replace the 13 year old service truck currently being used. Additional information on this replacement can be found in Section VII. Capital Requests/Lease Purchase.

In **Public Works Buildings,** the line item CO Other Improvements has been budgeted at \$15,000 to improve the kitchen/break area for employees.

In the **Police Department** budget the position of Assistant Chief has not been filled and it is anticipated that one entry level road officer would be hired in lieu of that position no sooner han January 1, 2014. This would save \$26,279. In addition, two vehicles have been budgeted and this is more fully discussed in Section VI. Capital Requests/Lease Purchase. Lastly, a weapons upgrade is budgeted at a net cost of \$5,100.

The **Fire Department** budget recommends the replacement of the 2002 Chevrolet Trailblazer. It also recommends the possible replacement of 1983 Brush Truck with a Quick Response Vehicle contingent upon grant funding assistance. This is discussed in Section VII. Capit Requests/Lease Purchase.

Five items budgeted in **Code Enforcement**, which includes Planning, need to be noted. First, \$20,000 has been budgeted for a streetscape plan as part of the Revitalization-Professional Services. This will be used to master plan Main Street and extend this planning to the Florence Mill complex. If the 1941 building is started in FY 2013-2014, the Town will need to begin the planning and construction for the outdoor area at Florence Mill and make sure it is blended with a consistent Main Street plan. Second, the local matches for the CDBG Hardin Road and the Pedestrian Planning Grants in the amounts of \$25,000 and \$6,200, respectively, have been budgeted. Third, the Planner/Downtown Coordinator has announced a December 31, 2013 retirement date. Salary for a replacement has been budgeted beginning November 1, 2013. Fourth, currently an administrative assistant is budgeted part time at 20 hours per week. This recommended budget includes increasing this to thirty hours effective July 1, 2013 and full time January 1, 2014 at a budgeted cost of \$16,608. Lastly, the budget includes the replacement of the Ford Focus used by this department with a small truck. This type of vehicle would better equip Inspections for their job duties. This is discussed in Section VII. Capital Requests/Lease Purchase. \$8,000 is included in revenues for the sale of the Ford Focus.

In the **Street Department** we are recommending one new position. The annual cost of this new position is \$34,583. The Town would also decrease the part time salary line by \$27,709. Although there was a significant cost to provide benefits to a full time employee, it was determined that the department could work more efficiently with a full time person as opposed to constantly reemploying the same part time employees in this department. In addition, a Right of Way tractor is included to be financed through lease purchase at a cost of \$40,000. This is discussed further under Section VII. Capital Requests/Lease Purchase.

The **Powell Bill** budget decreases the Powell Bill contracts from \$303,000 to \$217,034. The overall budget for Powell Bill (\$245,000) reflects the Powell Bill revenue (\$240,000). If it is determined that additional Powell Bill work is needed to be done during the year, a request could be made to the Board for a budget amendment to use some of the Powell Bill fund balance (\$241,737 as of June 30, 2012).

The **Cemetery** budget recommends the addition of a Gator which is discussed under Section VII. Capital Requests/Lease Purchase.

Six other items that will impact the General Fund are 1) Reserve - Future Appropriation, 2, Contingency - Pay Raise, 3) Contingency - Merit, 4) Contingency - Unemployment, 5)

Contingency - Reclass/HR Policy, and 6) Contingency - Reclass Implementation. The Reserve-Future Appropriation is discussed in Section IX. Fund Balance and Historical Review of Town of Forest City Capital Reserve. The contingencies related to salaries (Pay Raise, Merit, and eclass) are discussed in Section XIII. Cost of Living Adjustment (COLA)/Merit/Reclassifications.

The State has implemented changes for its Unemployment Insurance Fund that will affect the way that cities and counties pay for unemployment benefits. This will require cities that are "reimbursing employers", which the Town is considered to be, to maintain a reserve account in the State Unemployment Insurance Fund equal to 1% of their taxable wage base. There is a maximum wage base per employee which is currently \$20,900 for 2013. Local governments would begin making quarterly payments during FY 2013-14 to bring their account balance up to this 1%. Therefore, the Town has budgeted this 1% of the unemployment taxable wage base (\$31,300) as a contingency in each fund for FY 2013-14 as follows: General Fund \$19,500, Parks and Recreation Fund \$2,800, Water and Sewer Fund \$6,500, and Electric Fund \$2,500. This is placed in contingency until such time that the process is actually implemented and our accounting distribution among departments is determined. This reserve would be in addition to the actual claims due from FY 2012-13 paid in FY 2013-14 which are estimated at \$5,082.50. In the future, all unemployment claims charged to a municipality would be deducted from their reserve account and municipalities would be billed annually for the amount necessary to bring their reserve account back up to 1% of the taxable wage base.

his is a brief explanation of some noted changes in the General Fund. The overall General Fund Expense has increased from \$8,690,134 to \$9,433,208 for a total increase of \$743,074. However, the increase in the Facebook incentive grant alone is \$947,748.

The line item General Fund revenue and expenditure budget is in Appendix A on page 29.

III HORENGEMILEEUND

With the potential of a development agreement with Gene Rees, it is recommended that the Town reestablish a Florence Mill budget beginning in FY 2013-2014. In the FY 2013-2014 the following items are recommended for that budget. First, in the line item Payment to Developer, \$140,000 has been budgeted assuming that the Town and Gene Rees agree upon the contingent contract that is currently under consideration and that the project is completed. The Board had agreed on this amount in FY 2012-2013. Assuming the contract is complete the Town will need to begin work on the grounds around the 1941 and prepare for the marketing of the remainder of the Florence Mill area. Once the 1941 building construction regins, the marketing strategy for next steps should be underway. The second budgeted item will be to remediate the area of the former dry cleaner. Based on an environmental consultant's estimate, \$48,888 is recommended in Professional Services-Remediation. This

would level the site bringing in additional soil and compact and seed the site. Lastly, an amount of \$25,000 is recommended for Building & Grounds Repairs and Maintenance. This would fund the improvements to the public area, boarding up and securing the windows the former Blanton Hotel and the continuance of repair issues that pop up around the six such as roof repairs. In addition, some decorative light poles might need to be added and some additional landscaping might need to be done.

The line item Florence Mill Fund revenue and expenditure budget is in Appendix B on page 73.

IV. PARKS AND RECREATION FUND

The total Parks and Recreation budget is largely unchanged from FY 2012-2013 to FY 2013-2014 falling from \$2,138,713 in FY 2012-2013 to a recommended \$1,935,780 in FY 2013-2014. Four major changes of note are as follows. Salary lines in the various Parks and Recreation Departments may have slightly changed. These changes were made to better allocate salaries to the department/purpose for where people work; however, the total amount of salaries was approximately the same. Second, \$300,000 was budgeted for Crowe Park lights in FY 2012-2013 and this project is now complete. Third, the purchase of 36 new golf carts is budgeted in FY 2013-2014 at a cost of \$142,200 or \$3,950 per cart. In addition, is estimated that each cart could be sold for \$1,500 and that amount is budgeted as a revenue item. The current carts are six years old. If the carts are not replaced, the Parks & Recreation Director has stated that each of the six year old carts would need a new battery in FY 2013-2014 at a cost of \$1,000 per cart. Fourth, a new Toro mower is recommended to replace a 2001 mower in order to help efficiently maintain the roughly 100 acres that the Parks and Playgrounds Department maintains. Both the carts and the mower, along with a new sound system at McNair Field, are recommended to be financed through lease purchase. See Section VII. Capital Requests/Lease Purchase for further discussion.

A request was made for Town funds from an individual for AAU cheerleading. That request is in **Appendix C** on page 79. No funds have been included in the Manager's recommended budget. It is the Manager's preference that the Board make the determination for the addition of funds for new outside organizations. Normally those organizations would be non-profit.

The line item Parks and Recreation revenue and expenditure budget is in **Appendix D** on page 87.

VAWATERANDSEWEREUND

Revenues:

Water

In FY 2013-2014 there are two revenues that need to be noted. First, Horsehead is projecting to start production on August 15. For budgetary purposes the Town is estimating Horsehead water purchases to begin on October 1. Horsehead daily water usage was estimated at 800,000 gallons per day. FY 2013-2014 water revenues are recommended to increase from \$3,150,000 to \$3,320,000 or \$170,000 from FY 2012-2013 to FY 2013-2014. In addition the Horsehead loan (\$950,000) repayment should begin and \$107,143 is budgeted for that repayment in FY 2013-2014. Lastly, in **Appendix E** on page 109, a report on water line extensions outside the Town limits is provided. The expansion of out of Town sales has been instrumental in the Town having a healthy water system.

Expenditures:

Water and Sewer Administration and Billing

Two items require a brief explanation. First, Department Supplies and Materials has been added at an estimated cost of \$17,000. In prior years, the toner and paper supplies for the bill printer have been paid from the Finance Department budget. They will now be allocated to the Water and Sewer and Electric Departments in order to more accurately reflect costs of the Utility Funds. Also, a call system for utility cutoff notification has been added at a cost of \$3,100 in the Water and Sewer and Electric Fund Non-Depreciable Capital Outlay line items. The Town had a notification system for a few months in a prior year which helped to decrease the amount of cutoffs but when the system was destroyed by lightning, it was not replaced. This recommended budget would allow this procedure to be reactivated with the expectation that it will improve customer relations and cut down on the number of utility cutoffs.

Water Operations and Construction

Three items are briefly noted. First, \$9,000 for part time salaries has been added. This will allow for a part time person to be used to expedite the exchange of old meters to new meters. New meters should be more accurate and will allow the Town to read those meters electronically. Over time this should bring in more revenue, reduce cost and improve efficiency. Second, Capital Outlay Improvements in the amount of \$200,000 is recommended to be budgeted. This is the annual amount budgeted to replace/rehabilitate old lines. Lastly, funds for the Highway 221 water line relocation have been re-appropriated as it does not appear that these funds will be expended prior to June 30, 2013.

Water Plant

Two items need a brief explanation. First, one large capital project was completed in FY 2012-2013. The Town had budgeted \$320,000 to complete the conversion from broadband narrowband in the water system. The water system uses the radio system to monitor elevated storage tanks water levels and telemetry. Second, department materials and supplies were increased at the water plant from \$90,000 to \$130,000. The principle reason for this increase is the increased water production expected for Horsehead and the necessary chemicals that the plant will need. The amended water plant budget in FY 2012-2013 is \$986,100 and is recommended at \$688,673 in FY 2013-2014 with these two aforementioned items as the principle reason for this change.

Sewer Operations and Construction

The approximate \$20,000 that the Town committed towards the county-wide sewer study is included in the Contracted Services line. Capital Outlay Other Improvements in the amount of \$175,000 is for the recommended replacement of the Oak Street sewer line.

Waste Treatment Plant

The waste treatment plant budget is requested to go from \$662,800 in FY 2012-2013 to \$833,612 in FY 2013-2014. First, an increase in electric utilities and departmental supplies which had been under budgeted in FY 2012-2013 by \$30,000 and \$21,000, respectively, required these line items to be increased. In addition, professional services in the amount \$25,000 has been budgeted to study the current sludge disposal system. Lastly, capital outla, in the amount of \$102,000 has been budgeted for a service truck, laboratory autoclave, (2) Aqual Jet 75 HP Aerator Power Sections and a return activated sludge pump. These items will be discussed in more detail in Section VII. Capital Requests/Lease Purchase.

Waste Treatment Plant Riverstone

This represents a relative new expense for the Town. Prior to Horsehead beginning operation the Town pumped and hauled the wastewater from Arvin Meritor. With the addition of the Horsehead wastewater more than doubling the daily wastewater flow, the 50,000 gallon per day package plant will be placed into operation. The budget will grow from \$14,650 to \$120,099. When the Riverstone package plant opens, it will require additional staff to man the facility. Although two positions were requested, the recommendation is to add one staff person and subsidize the operations with existing staff. This situation will be monitored during the year. After the initial startup of this plant it is estimated that some expenses can be reduced in year two.

Water Meter Services

The cost of one-half of a truck to replace the 2006 Ford Ranger is included in the Water Meter Services department. The other one-half is included in the Electric Meter Services

department. The total estimated cost would be \$18,696. The 2006 Ford Ranger would be sold. This item will be discussed in more detail in the Section VII. Capital Requests/Lease Purchase.

ebt Payments

The FY 2013-14 recommended budget includes the first annual payment on the NCDENR loan related to the Central Business District Sewer Rehabilitation Project. A payment of \$24,700 on the 20 year 0% interest loan is budgeted.

Other Items

As discussed previously in the General Fund section, other items that will impact the Water and Sewer Fund are 1) Reserve - Future Appropriation, 2) Contingency - Pay Raise, Contingency - Merit, 3) Contingency - Unemployment, 4) Contingency - Reclass/HR Policy, and 5) Contingency - Reclass Implementation. The Reserve-Future Appropriation is discussed in Section IX. Fund Balance and Historical Review of Town of Forest City Capital Reserve. The contingencies related to salaries (Pay Raise, Merit, and Reclass) are discussed in Section XIII. Cost of Living Adjustment (COLA)/Merit/Reclassifications. Contingency — Unemployment is discussed in the General Fund section.

The line item Water and Sewer Fund budget revenue and expenditure budget is in **Appendix F** on page 117.

W. HEGIRICIEUND

Revenues

Revenues in the Electric Fund for FY 2013-2014 are tracking FY 2012-2013. Electric sales in FY 2012-2013 are estimated to be \$11,300,000 and, based on electric billings through April 30, 2013, that number is also budgeted in FY 2013-2014. Valley Fine Foods has reopened one line with an additional line anticipated to be opened in May.

Expenditures

On April 15, 2013 the Board approved the retrofit of the Town's seven generators at a cost of \$536,504. In addition some main distribution lines and substation upgrades are budgeted for a total recommended capital expense of \$649,900. This is found in the Electric Operations and Construction C O Other Improvements. In addition, the transfer out of the Electric Fund to the General Fund is recommended at \$3,000,000 which is consistent from FY 2012-2013 to 2013-2014. The transfer from the Electric Fund to Parks and Recreation is reduced from a budgeted \$755,238 in FY 2012-2013 to \$515,345 in FY 2013-2014. The transfer of utility dollars to the General Fund and Parks and Recreation will be discussed in Section XI. Interfund Transfers.

Other Items

As discussed previously in the General Fund section, other items that will impact the Electric Fund are 1) Reserve - Future Appropriation, 2) Contingency - Pay Raise, Contingency - Men 3) Contingency - Unemployment, 4) Contingency - Reclass/HR Policy, and 5) Contingency - Reclass Implementation. The Reserve-Future Appropriation is discussed in Section IX. Fund Balance and Historical Review of Town of Forest City Capital Reserve. The contingencies related to salaries (Pay Raise, Merit, and Reclass) are discussed in Section XIII. Cost of Living Adjustment (COLA)/Merit/Reclassifications. Contingency - Unemployment is discussed in the General Fund section.

The line item Electric Fund revenue and expenditure budget is in Appendix G on page 143.

VII. CAPITAL REQUESTS/LEASE PURCHASE

Although there are not specific reserve funds set up for specific future capital purposes, there is a need to move forward with some of the capital items requested in the FY 2013-2014 budget. Chart 3, "Capital Requests FY 2013-2014," shows all the capital requests made by fund. The "Request" column lists all requests made. The "Recommended" column show those recommended requests. It is recommended that some capital items be leased purchased over 36 months. Those items are in the third column "Lease Purchase". It is estimated that these items can be financed at an interest rate of 2% or less based on today's market. However, to be conservative for budgetary purposes, the recommended budget is based on the financing occurring on or after January 1, 2014 at an interest rate of 3%. Column four, "6 Months Debt Service on Lease Purchase" is the amount budgeted to make six months of debt service payments on these items in FY 2013-14. The life of these items is projected to be longer than three years. By lease purchasing these items, the Town can spread the cost of these items over their useful life and have use of these equipment items that are being recommended in FY 2013-2014 without a major reduction in the fund balance in FY 2013-2014. Interest expense over this 3 year period is estimated to be \$15,000-\$20,000.

The Police Club building project was not budgeted for renovation but it is recommended for discussion during the budget process. The Police Club no longer uses the Police Club building at Crowe Park. The activity at Crowe Park and at the Forest City Clubhouse indicates this building would receive great interest if it was available and rented to the public. The building is approximately 30' x 107'. It is estimated that a renovation budget of \$100,000 would be needed if this building were to be renovated and offered as a public facility.

VIII. 2013 PROPERTY VALUES AND FACEBOOK IMPACT

Chart 4 on the following page, "2013 Real and Personal Property Value Estimates," shows property values in Forest City from FY 2007-2008 to the estimate for FY 2013-2014. The value of the Town has increased from \$639,196,330 in FY 2012-2013 to \$949,033,380 in FY 2013-2014. This represents an increased value of \$309,837,050 or 32.64%.

Note: Business Personal Property Value for Andale, LLC (Facebook) for 2013 is \$326,842,560, which is a \$264,727,850 increase from last year. After applying depreciation Gains in real property values may also be attributed to Facebook as phase 1 building is 100% and phase 2 building was 55% complete as of January 1, 2013.

U Source: Rutherford County Tax Department

However, upon a review of chart 5 below, "Facebook Property Value/Levy Comparisons," the total property value increase in Facebook from FY 2012-2013 to FY 2013-2014 was \$326,256,650. Therefore, without Facebook the Town's value would have decrease <\$16,419,600>.

Chart 5: FACEBOOK PROPERTY VALUE/LEVY COMPARISONS

	FY 12-13	Incre FY 13-14	ase FY 12-13 to FY 13-14

X JEUND BALANGE AND HISTORICAL REVIEW OF TOWN OF EORESTING WEAP PAIR ESTRAIN

Historically, the Town of Forest City has kept healthy fund balances in the General Fund (all references to the General Fund for the purpose of this section includes the Parks and Recreation Fund as the annually audited financial statements roll these two funds together) and the Enterprise Funds (Water and Sewer; Electric). This is a brief analysis of the state of those funds. In addition, this analysis includes a review of the capital reserves as stated in the Town's annual budget.

Shown of the following page, Chart 7, "General Fund Balance Available for Appropriations Calculations," is a five year history of the General Fund fund balance available for appropriation. The current estimate is that the General Fund fund balance available would decrease by (\$53,225) for the fiscal year ending June 30, 2013. The balance available for appropriation would still remain at a healthy 34.36% as of June 30, 2013 down from 36.31% on June 30, 2012. Traditionally revenues and expenditures are estimated conservatively and the potential for a zero decrease in fund balance is still a distinct possibility.

CHART 7 GENERAL FUND BALANCE AVAILABLE FOR APPROPRIATION CALCULATIONS FISCAL YEARS 2008-2009, 2009-2010, 2010-2011, and 2011-12 Actuals (Estimate 2012-13)

As the previous chart shows, the Town's fund balance available for appropriation as a percentage of expenditures as of June 30, 2012 is well above the LGC <u>minimum</u> of 8% (one nonth of operating expense) at 36.31%. This equates to 4.36 months of operating reserve. This chart also provides some comparison of Forest City to other towns of the approximate same size (average fund balance % of 49.18%) and electric city towns (average fund balance % of 38.53%).

The Town's FY 2012-13 Budget Ordinance reflects a total of \$470,000 in the General Fund as "reserves" for future projects. In addition, \$25,000 was reflected as a "reserve" for the Smoky Burgess statue in the Parks & Recreation budget. While the majority, if not all, of the Smoky Burgess statue will be paid for in FY 2012-13, the General Fund projects will not be completed in the current fiscal year and additional funds would be needed to complete these projects in future years. As stated earlier, the General Fund is currently projected to decrease minimally in FY 2012-13 even without any expenditure for these projects. This \$470,000 is included in the General Fund Balance Available for Appropriation (projected at June 30, 2013 to be \$3,465,369, or 34.36%) on the chart. If these funds were truly to be set aside for these projects, the projected June 30, 2013 General Fund Balance Available for Appropriation would be \$2,995,369 (\$3,465,369-\$470,000), or 29.7%. Based on limited research, budgeting this future reserve has been done but it has not been carried forward into any specific type of a reserve fund. Any funds would need to be appropriated from the General Fund in that year. In addition, approximately \$200,000 of this amount must be reserved for Powell Bill which would then leave the available amount at \$2,795,369, or 27.7%.

Projected Fund Balance Available from chart	\$3,465,369
"Reserves"	(470,000)
Powell Bill Funds projected to be on hand	(200,000)
Adjusted Projected Fund Balance Available	\$2,795,369
As a % of Expenditures	27.7%

On the following page, Chart 8, "Enterprise Funds Cash Balances" shows the five year history of the Town's Enterprise Funds. As the chart shows, the estimate is that the Water and Sewer Fund will decrease in the current fiscal year from \$4,924,906 to \$4,858,044 or (\$66,862). The Electric Fund is estimated to increase from \$2,959,059 to \$3,262,179 or \$303,120.

CHART 8: ENTERPRISE FUNDS CASH BALANCES FISCAL YEARS 2008-2009, 2009-2010, 2010-2011, AND 2011-2012 ACTUALS (Estimate FY 2012-13)

	FY 2008-2009 ACTUAL	FY 2009-2010 ACTUAL	FY 2010-2011 ACTUAL	FY 2011-2012 ACTUAL	FY 2012- 2013 ESTIMATE
Water & Sewer Fund Cash & Cash Equivalents	\$3,926,884	\$4,459,847	\$5,583,193	\$4,924,906	\$4,858,044
Electric Fund Cash & Cash Equivalents	\$2,928,288	\$2,464,822	\$3,285,695	\$2,959,059	\$3,262,179

The Town's FY 2012-13 Budget Ordinance reflects a total of \$1,182,100 in the Water & Sewer Fund and \$817,000 in the Electric Fund as "reserves" for future projects. The Water and Sewer Fund projects will not be completed in the current fiscal year and additional funds would be needed to complete these projects in future years. Of the \$817,000 from the Electric Fund, \$300,000 is described as being reserved for the generators. Council recently approved moving forward with these generator retrofits due to the EPA deadline of May 2014 at a cost of \$536,504. These funds will more than likely be expended in FY 2013-14 and will come from fund balance. As stated above, for FY 2012-13 the Water and Sewer Fund is currently projected to essentially break even and the Electric Fund will increase by \$303,120. The Electric Fund increase is attributable to the approximate \$600,000 "true-up that the Town anticipates receiving from Duke from 2012. These "reserves" of \$1,182,100 and \$817,000 for the Water and Sewer and Electric Funds, respectively are included in the \$4,858,044 and \$3,262,179 cash balances above. If these funds were truly to be set aside for these projects, the projected June 30, 2013 available cash balances for the Water and Sewer Fund and Electric Fund would be \$3,675,944 and \$2,445,179, respectively. The operating budgets for these funds are recommended to be \$4,328,087 and \$9,291,435, respectively, for FY 2013-2014.

It should be noted that the recommended FY 2013-14 budget does include the appropriation of some fund balance in each fund. Below is a discussion of these appropriations by fund.

General Fund - Fund Balance Appropriated

The General Fund recommended budget appropriates \$500,000 of fund balance. While this fund balance is appropriated, the thought is that it would not actually be spent due to the use of relatively conservative revenue estimates and the fact that, historically, all appropriations for Town functions are not totally exhausted by year end. For example, \$1,029,518 of fund balance is currently appropriated in the FY 2012-13 budget. \$470,000 of this amount relate to "reserves". Therefore, \$559,518 (\$1,029,518 - \$470,000) is appropriated for current year operations. It is estimated at this time that \$53,225 of fund balance will actually be spent in FY

2012-13 and, therefore, \$506,293 (\$559,518 - \$53,225) would be unspent. In addition, in the two fiscal years previous to FY 2012-13 an approximate annual average of \$450,000 of propriations was not spent.

Water and Sewer Fund - Fund Balance Appropriated

The Water and Sewer Fund recommended budget appropriates \$554,100 of fund balance. \$154,100 of this amount is related to the re-appropriation of the Highway 221 water line relocation project. As with the General Fund, it is estimated that these funds would not actually be spent based on conservative revenue estimates and appropriations that have historically not been spent.

Electric Fund - Fund Balance Appropriated

The Electric Fund recommended budget appropriates \$1,000,000 of fund balance. Approximately \$600,000 of this relates to the retrofitting of the 7 generators. It is estimated that this \$600,000 will be spent. The Town could enter into an installment purchase financing for this project for 59 months for an approximate 3% interest rate and spread this cost over time as opposed to taking this from the fund balance in one year. The remaining \$400,000 of fund balance appropriation is not expected to be spent based on conservative revenue estimates and appropriations that have historically not been spent.

X. TOWN OF FOREST CITY CAPITAL RESERVE

Details of the "reserves" of \$470,000, \$1,182,100 and \$817,000 included in the FY 2012-13 annual budget ordinance are on the attached pages. On the following page, Chart 9 "Town of Forest City, FY 2012-13 Estimate of Funds Needed to be Reserved for Future Capital Items" is the list of items that the Town had most recently listed in the budget for future planned equipment purchases or catastrophic events.

The column entitled June 30, 2012 shows the cumulative amount as of June 30, 2012 for each of the items listed. The column FY 12-13 shows the amount budgeted in this year. The amaining columns show how long it would take to accumulate the estimated funds needed for each item. The cumulative total for all funds in FY 2012-2013 would \$2,469,100. However, for clarification sake, these funds are reflected in the fund balance available/cash balances above as the Town has not established true separate capital reserve/capital project funds for any of these items. To purchase any equipment or meet any catastrophic event, the Town would spend funds from the corresponding fund balance or cash balances to which the need applied.

XI. INTERFUND TRANSFERS

Chart 10 below, "Interfund Transfers FY 2010-2011 Projected thru FY 2013-2014", shows the historical perspective of transferring among funds by the Town. During this four year period the low transfer was FY 2010-2011 when \$4,500,000 was transferred from utilities to the General Fund (including Parks and Recreation). FY 2012-2013 represents the high year with \$4,827,413 being transferred. An ongoing concern is that discussions have taken place by the legislature that could limit or eliminate the amount the Town transfers from utility funds to he General operating fund. If this became a reality, the Town would by necessity have to drastically reduce General Fund spending and services or significantly increase property taxes or a combination of the two.

Chart 10: INTERFUND TRANSFERS FY 2010-2011 PROJECTED THROUGH FY 2013-2014

	F	/ 2010-2011	FY	2011-2012	FY	2012-2013	FY	2013-2014
Parks & Rec from Water/Sewer Parks & Rec from Electric	\$	1,000,000	\$	1,000,000 637,738	\$	1,072,175 755,238	\$	850,000
Florence Mill from Water/Sewer	Ÿ	1,000,000	7	037,736	Ş	733,238	\$ \$	515,345 213,888
General from Electric General from Water/Sewer	\$	3,000,000 500,000	\$	3,000,000	\$	3,000,000	\$	3,000,000 57,268
	\$	4,500,000	\$	4,637,738	\$	4,827,413	\$	4,636,501

XII. EDUCATION ASSISTANCE PROGRAM

Historically the Town of Forest City has provided education support for employees without defined policy. A potential policy is included in **Appendix J** on page 197 entitled "Education Assistance Program Policy". If Council approves this policy, it is recommended to be effective July 1, 2013. This would allow the Town to support the education of Town employees who are striving to improve their job skills which should also improve the functioning of various departments. At the same time this policy would establish parameters on how much assistance the Town would provide. Lastly, as the policy states, it would be subject to funds being allocated in the annual budget for this purpose. The Town had 7 requests for education assistance in the FY 2013-2014 budget with a total dollar request of \$18,727. With these 7 requests with a cap of \$1,000 per request the amount budgeted is \$7,000.

XIII. COST OF LIVING ADJUSTMENT (COLA)/MERIT/RECLASSIFICATIONS

The number of full time authorized positions by department is included in **Appendix K** on page 209. This budget recommends a 1.7% COLA effective July 1, 2013. This is the same percentage increase social security recipients will receive in 2013 based on the measured social security inflationary index. The cost of this total 1.7% increase for all Town employees is \$108,375.

In addition, a contingency of \$31,875 is recommended to be set aside for merit increases. This represents 1/2% of current salaries. The allocation process for these funds has yet to be determined; however the evaluation process will be used. It is not anticipated that these merit awards would take place before January 1, 2014.

One employee is recommended for a job reclassification. With the opening of the River Stone Wastewater Treatment Plant, Sonny Penson, Waste Treatment Plant Coordinator, will assume new responsibilities and is recommended to receive a grade increase. This would equate to a salary increase of 2.5%.

The Town has not conducted a formal reclassification study for Town employees in many years. The cost to conduct such a study is estimated at \$17,500. This would include a review of job descriptions, exempt vs. non-exempt analysis, the pay plan, and a personnel policy review as part of the larger reclassification study. The budget includes \$31,875 for implementation in the event any salaries are recommended for adjustment.

In addition, the Police Department and Fire Department have requested a mechanism recognize entry level road officers and fire fighters who have been in those entry lever positions for five years and have achieved a certain level of training and met performance

standards. This budget recommends that those officers be given the opportunity to become Master Police Officers and Advanced Fire Fighters. A description of these qualifications is in ppendix L on page 215. The cost to implement these new standards effective January 1, __014 would be \$7,900 and \$6,792 for the Police Department and Fire Department, respectively. This is included in this recommended budget. However, these new positions would be subject to be reviewed in the pay classification study whereby the consultant would review and make the appropriate recommendation based on the research.

XIV. MAJOR GRANTS

It is recommended that the balances remaining in the current active grants as of June 30, 2013 be re-appropriated in FY 2013-2014. As of now, the following grants are active:

- Horsehead
- Valley Fine Foods
- CBD Sewer Project

XV. CONCLUSION

As stated in the introduction, the major goal of this budget was to maintain services without increasing property tax rates or user fees. This budget as recommended accomplishes that goal. In addition, the recommended capital requests set the stage for allowing the Town to continue to progress forward. The addition of these lease purchase capital request items allow the Town to have benefit of certain items while paying a very small interest rate for 36 months permitting those items to be placed into service in FY 2013-2014 without the use of fund balance. This budget also makes an investment in the employees who are the major service providers to the Town. With a 1.7% COLA, the establishment of a performance based merit program and a comprehensive review of the Town's overall pay system, the Town should be well positioned in the future. The chart below shows that the overall recommended budget of the Town would decrease from \$31,013,110 in FY 2012-2013 to \$29,838,899 in FY 2013-2014 which is a decrease of \$1,174,211 or 3%. This reduction occurred while Facebook taxes and the offsetting economic development grant back to Facebook increased the Town's overall budget by \$946,144.

TOWN OF FOREST CITY FY 2012-2013 AMENDED AND FY 2013-2014 RECOMMENDED BUDGETS

	Amended FY 2012-13	Recommended FY 2013-14
General Fund	\$ 8,690,134	\$ 9,433,208
Florence Mill Fund	-	\$ 213,888
Parks & Recreation Fund	\$ 2,138,713	\$ 1,935,780
Water & Sewer Fund	\$ 6,806,475	\$ 5,449,243
Electric Fund	\$13,377,788	\$12,806,780
TOTAL	\$31,013,110	\$29,838,899

I would like to thank all the Town Department Heads for their efforts to educate me and Finance Officer Julie Scherer on their budget needs and their assessment of what was needed to accomplish their respective tasks. In addition, I would like to thank Town Clerk Emily Sain for her work in typing and assembling the budget document. Lastly, I would like to thank Finance Officer Julie Scherer for throwing herself into her new responsibilities as of January 1, 2013 and working to make this budget as thorough, detailed and accurate as possible.

Respectfully Submitted,

John Condrey City Manager

****The Appendixes are not included in the printed Budget Book.

They are available upon request.
